Engineer Training Program

MTVG is proud of our official comprehensive training program that offers hands on training to become part of the BEST team of mobile engineers.

You Will Be Trained In The Following Areas:

+Engineering - You will join the engineers on site and learn what it takes to put on a live event. This will include set up, truck maintenance, client relations, and basic troubleshooting.

+Truck Integration - You will be given a unique opportunity to learn how a truck is built from start to finish. You will work with our integration crew to learn every aspect of what it takes to build a television truck.

+Maintenance - You will spend time with our maintenance group where you will learn how to fix and maintain the trucks' equipment. All equipment maintenance will be covered with a focus on camera repair and the trucks' IT infrastructure.

Our Engineers Are:

- Technically savvy
- Self starters
- Enjoy working on a team
- Problem solvers
- Have excellent communication skills
- Enjoy solving complex issues under pressure

The Job:

Your training will be on a Mobile Unit in one of our core cities (Your Choice/Availability).

Pittsburgh	Phoenix	Minneapolis	Orlando	Tampa
Detroit	Los Angeles	Milwaukee/Chicago	San Diego	Miami
Denver	Dallas	Atlanta	New York City	St Louis

This is the perfect opportunity to start your career as a Mobile TV Engineer. Successful completion of the training program can lead to a great career in Sports Television Production with our fleet, which is located across the US.

Expected Pay:

Trainee (Paid Education) - \$15 per hour + Per Diem (If applicable).

Engineer- Competitive starting salary with highly paid long-term potential.
